Heavy Buying Presumably in Belief of Increase in Common Dividend. New York, May 13 .- Aside from a further demonstration in the hard coal slures, especially Lenigh Valley, a new high record for Canadian Pacific, and unusual strength in American Sugar, which advanced to its best quotation in several years, today's stock market inclined to irregularity and duliness. The movement in the coalers may have

been based in part on the assumption that the differences between the oper-ators and the miners are in the way of early settlement, but it doubtless gathered much of its strength from sheer manipulation, accompanied by reports that a recent examination of Lehigh Valley had disclosed hitherto unknown assets. Reading was more active than Lehigh Valley, indeed, the most active tissue in the list, but its strength was less pronounced.

Later, how-ever, the last named drew away from Reading, which failed by a small margin to repeat its high record price of a month ago. The buying of American Sugar suggested absorption, founded perhaps on the belief that the com-mon dividend might soon be increased. At all events the rise falled to take into account the avowed intention of

the federal government to renew its prosecution of that company. Union Pacific and many other stan-dard stocks were heavy the greater part of the day, with marked and perpart of the day, with marked and persistent pressure against United States
